DETAILED ACTION

Response to Arguments

Applicant's arguments filed 12/22/08 have been fully considered but they are not totally persuasive. Applicant argues that Pike (US 3,944,947) fails to teach a laser produce plasma generation. However, the applicant amended the preamble and the body of the claim fails to support amendment to the preamble. Thus, the preamble has no patentable weight. The Pike rejection will be repeated.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-11, 14, 18, 26-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Pike et al (US 3,944,947).

Regarding claim 4, the preamble has no patentable weight. see figure 8; col. 7, lines 50-67 and col. 8, lines 1-20.

Regarding claim 5-6, rotating prism.

Regarding claim 8-see figure 8.

Regarding claim 9, the preamble has no patentable weight. See figure 8 and figure 1.

Regarding claim 10-11, rotating prism.

Regarding claim 14, 2 beams for 2 prisms.

Regarding claim 18, pulse sequence while maintaining spectral purity.

Regarding claim 26-27, see figure 8; col. 7, lines 50-67 and col. 8, lines 1-20.

Allowable Subject Matter

Claims 1-3, 13,18,24,28 are allowed.

Claims 15, 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: applicant's arguments, filed on 12/22/08, at page 15(second paragraph), were found persuasive.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
